Dedication

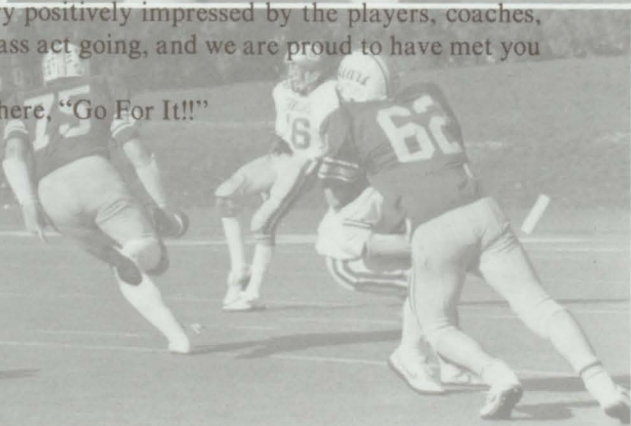

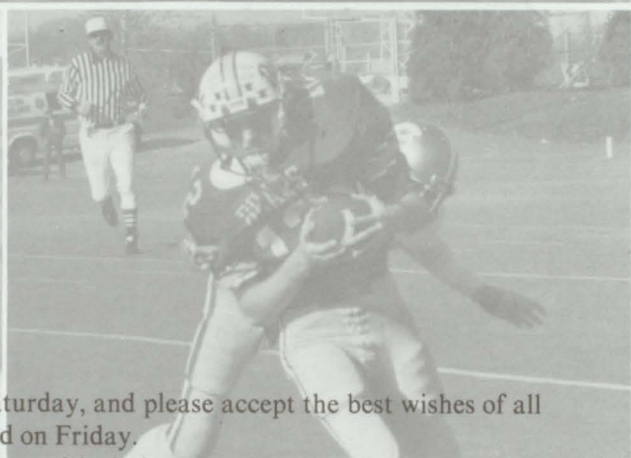

Dear Trojans:

What a game! Congratulations on your big win on Saturday, and please accept the best wishes of all the Blue Raiders for continued success against Yorkwood on Friday.

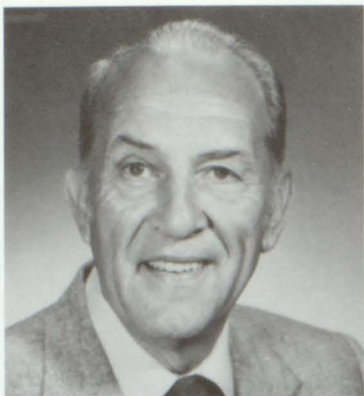

I would be remiss if I didn't say that we were all very positively impressed by the players, coaches, cheerleaders, and fans of Maroa-Forsyth. You have a class act going, and we are proud to have met you in such an important game.

Again, good luck on Friday. As we like to say around here, "Go For It!!"

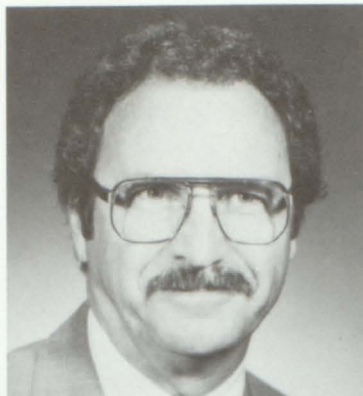

Very Truly Yours,
The Walnut Blue Raiders
Lawrence P. Eggleston
Supt./Principal

Congratulations from MAROA LUMBER COMPANY
305 East Main Street, Maroa, IL 61756

The year is 1999, fifteen years after the talented class of '84 has graduated. Let's see what they're up to at the turn of the century.

We start off with a stroll down "Victory Lane," a park built beside the old Maroa-Forsyth High School, dedicated to those great senior football players back in 1984. Here comes Erik Black, Joey Shofner, Craig Miller, and Brian Emery. The group has informed us that they have started their own professional football team. Erik is playing, Richard is coaching, Craig is the defensive coach, Joey is the offensive coach and Brian is the cheerleading sponsor. Brian says he has a good squad. His captain is Marti Surina.

As we stroll on down Victory Lane, we come to the new shopping mall. Our first store is "Art Display," run by Patty Sides. She tells us that Kim Cavanaugh is Rick Springfield's own private secretary, Shannon Rhodes is racing at the Indianapolis 500 with her new Turbo, Shelley Moore has started her own disco called "Shelley's," Nola Swinger has invented her own kind of bubble gum for blowing bubbles, and Brenda Shockey is playing pro softball in Michigan.

As we stroll along we run into none other than Dawn Lazell. Dawn tells us that she is running her own tanning spa, Loryetta Pruitt is now running the Locker Room and is happily married, Donnette Sennhenn took up professional modeling, and Becky Hoffman is teaching a class called "Learning to Type 101."

We leave Dawn and head on to the arena where we find Vonda Lorette preparing her Olympic hopefuls in Volleyball. Vonda is now head coach. Across the gym we find Tim Ohlemeyer coaching his Olympic hopeful basketball players. Vonda informs us that Laurie Todd is still happily married and is an executive secretary for Burk Enterprises. Donna Smith is still happily married also. She now owns "Caines 84 Flavors," her own "little" ice cream store. Here comes Shelly Townsend to talk with Vonda. Shelly informs she now owns a chain of 27 Health Spas, and is happily married. She loans the use of her Health Spas to Tim and Vonda's Olympic teams.

As we leave the arena who should we run into but Jeff Followell and Jim Clark. Jeff is still happily married and owns both of the Great Skates in Decatur; Jim is running them.

We stroll on along and run into Greg Patterson. Greg tells us he is a program director for NASA space center. His two top astronauts are Sam Brown and Mark Rogers. Greg says both are doing well.

We walk on across the street and run into Melody Shoemaker. Melody is an associate director for Amy Gardner's Pom Pon Squad. Her squad is presently performing for Erik's football team. Both women need to rush off and can't talk so we decide to board a 747 and fly out west to see what the rest of the class is up to.

We board the plane and are instantly greeted by our flight attendant Angie Buttrum. Angie tells us she gets to fly everywhere and manages to stay in touch with a lot of the class. She informs us that Kevin Koslofski is now making millions play pro baseball, while Bruce Dial is making millions coaching the North Carolina Tar Heels basketball team since Dean Smith retired. She says that they are passengers quite often on board many of the flights. A voice comes over the intercom, and lo and behold it is Rich Ryan flying our plane.

As we are going over the Grand Canyon we see two motorcycles doing death defying feats. Angie informs us that it is Rick Campbell and Curt Day. They have opened their own motorcycle stunt club and do T.V. stunts for a new T.V. show called STUDS. The producer is our very own Kevin Jannusch. Kevin seems to be doing well, besides STUDS, Kevin is producing another series called "Cartoon Man" starring Tim Gilbert.

As we arrive at Las Vegas airport we are greeted by Lanette Henley who is public relations supervisor for MGM Hotel. She tells us Steve Deal will be singing tonight along with Boy George and Michael Jackson.

As we are going through the lobby we run into David Thompson who is taking a break from dealing Black Jack. He tells us that Troy Brelsford owns a 2,000 acre ranch in Texas, and Barry Miller is out on an offshore oil rig.

Coming down the lobby is Cheryl Miles. Cheryl is the top Camaro salesperson in Vegas. Cheryl is on her way to a doctor's appointment with Erin Atherton. Erin is a General Practitioner. Her office is in the Baker Building where Jeff Baker has his computer company.

We decide after Steve's show to go to the new restaurant called "Tina's" famous for seafood, chicken, and steak. We are greeted at the door by the owner Tina Poszich. Tina says business is excellent. She also tells us that Marsha Reason has opened a daycare center two blocks down, and Jeff Wilson has a night club a block from the daycare center. Tina tells us that Andrea Head has just opened a new casino by Caesars Palace.

We go to our table and we are served by the head waiter, David DeMark who informs us that Mike Hathaway is a General (the first) in the National Guard and that Chris Braden is manufacturing a new line of fashion clothes called "C.B." for truckers.

As we prepare for our journey home we look back at the Class of '84, and realize just how far everyone has come. No matter how far apart we are, we will never forget those in our past. We will never forget the fun times and special friends we had for at least six years of our lives. Good luck and best wishes to you all.

by Shelly Townsend
None before like '84
None to come either!

Editors Page

We hope that this yearbook will help many of you to recall the good times shared with friends during the 1983-84 school year.

We would like to thank Mr. Maddin and especially Todd Hazelrigg and Christy Smith for their unending support and dedication in helping us complete this yearbook.

And to the class of 1984, we would like to say that we are really going to miss these very special high school friends and memories. We find it very difficult to just let go and say good-bye to so many people who have meant so much to us these past six years.

We give you the best of wishes in the world and we honestly hope that you will all stay in touch. We are going to miss you all.

Sincerely,
The Editors
Andrea Head
Tina Poszich

Thank You!

The 1984 Trojanaire yearbook staff would like to recognize and give a special "Thank You" to our advertisers. This yearbook would not have been possible without their support. Please show your appreciation by supporting them.

The first part of the paper discusses the importance of the research and the objectives of the study. It then presents a literature review of the existing research on the topic. The methodology section describes the research design and the data collection process. The results section presents the findings of the study, and the conclusion section summarizes the main findings and provides recommendations for future research.

The study was conducted in a laboratory setting, and the data were collected using a series of experiments. The results of the experiments were analyzed using statistical methods, and the findings were compared with the results of previous studies. The study found that the research objectives were achieved, and the results were consistent with the findings of previous research.

The study also found that there are several factors that influence the results of the research. These factors include the experimental design, the data collection process, and the statistical analysis. The study provides recommendations for future research, including the need for more detailed data collection and the use of more advanced statistical methods.

In conclusion, the study found that the research objectives were achieved, and the results were consistent with the findings of previous research. The study also found that there are several factors that influence the results of the research, and it provides recommendations for future research.
